FOR IMMEDIATE RELEASE

Captain Quintous Earl Crews, Jr., M.D., Commanding Officer Naval Regional Medical Center, Long Beach, has been selected for promotion to the grade of Rear Admiral.

The Secretary of the Navy announced Crews' selection Tuesday.

A native of Port Arthur, Tex., Crews graduated from the University of Texas at Austin and the University of Texas School of Medicine, Galveston. He has had several tours of duty in California, including two years as Medical Officer at the Long Beach Naval Dispensary from 1956-1958 and later as Chief, Radiology, at the Naval Regional Medical Center, San Diego from 1970-1976. Crews was also a Fellow in Therapeutic Radiology at the Los Angeles Tumor Institute in 1960-61. Prior to assuming his current post in 1978, he was Director of Clinical Services at the National Naval Medical Center, Bethesda, Md.

The Rear Admiral selectee is a member of eight professional societies, including the American College of Radiology, the California Radiation Therapy Association, the Society of Nuclear Medicine and the Association of Military Surgeons of the United States. He has held

a number of professional appointments throughout his 25-year Navy career and currently serves as Fellow and Navy Counselor with the American College of Radiology, and as Navy Counselor with the Radiological Society of North America. Additionally, Crews is an Associate Clinical Professor of Radiology at the USC School of Medicine and an attending physician in the Department of Health Services, Memorial Hospital Medical Center, UC-Irvine.

Crews has delivered several professional lectures in Southern California and has published extensively in medical journals. He and his wife, ^{the former Maybelle Bierschwale of Belton, T} Maybelle, reside in Long Beach with their youngest daughter, Victoria. The Crews have three other children.
